

Scenes From NIH Research Day

More than 3,000 persons attended NIH Research Day, held on campus Sept. 25. State-of-the-art research was discussed among scientists from diverse disciplines through symposia, poster sessions and workshops.

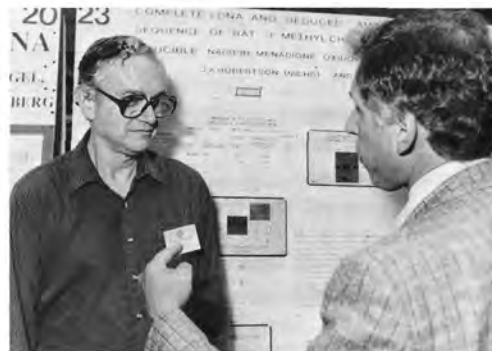

Dr. James B. Wyngaarden, NIH Director, participated in a workshop on the future direction of biomedical research.

Dr. Philip Chen, NIH Associate Director for Intramural Affairs (l), visits Dr. Samuel Broder, NCI.

Dr. Robert Gallo, NCI, discusses his poster with many interested onlookers.

Dr. Marshall Nirenberg, Nobel Laureate, NHLBI, (l), listens to a point made by Dr. Stuart Aaronson, NCI.

Dr. Roscoe Brady (l), NINCDS, pauses a moment with Dr. Louis Sokoloff, NIMH.

Dr. Steven Rosenberg, NCI, answers a question about his poster.

Dr. Abner Notkins (l), director of intramural research, NIDR and Research Day organizer, chats with Dr. Edward Rall, coorganizer of Research Day and NIH Associate Director for Research Services, at the picnic following Research Day—attended by more than 1,600 people.
